

Immediate Dangers With Online Pictures and Postings

- ✚ **Don't** put pictures of yourself on the internet, predators could find out who you are right away
- ✚ Postings can give out personal information
- ✚ Like where you live, and you phone number
- ✚ You never know what predators could do with a picture or a posting of yourself or about yourself
- ✚ Pictures can give out information too, like your hair color, if it's a school photo it can give away your school, and if it's a family photo it could give away your whole family
- ✚ So **Don't** put a picture or posting of yourself or about yourself because with this information predators can track you down

This could be a predator

This could be you talking online to that predator
